Dowloand

Concept

This is a typography made by idea of using your own body. Even your own ADN can communicate and can express every single idea. This idea come by experimenting with the chinesse tinte, using an object that keeps in my finger and by using my ADN to make a new way to communicate.

Process

Uses

This type is perfect fpr text head with horror or mistery themes!

This is an example of a text header

This is an example of a sub text

Let's meet an interesting symbol called modulo. When % is placed between two numbers, the computer will divide the first number by the second, and then return the remainder of that division.
